

TBI Plant Exchange

Let's share perennial plants!

Early fall is a good time to swap & to plant.

Perennials come back each year. You can plant at least a month before the first frost.

- Thinning your plants is good for your plants.
- Sharing your plants is good for our community.
- You do not need to provide plants to receive plants.

Interested in participating in this activity? Contact Laura Cooper at cooper4449@gmail.com for more details.

Deadline: August 25th for participation.
